

The diagram is set against a solid green background. On the left, a small portion of a light blue shape is visible. In the center, a blue rectangular box with rounded corners and a vertical scroll-like bar on its left side contains the text 'PreRender Page' and a bulleted list. To the right of this box, a stack of three blue rectangular boxes is shown, with the top one containing the text 'Rendered Pages' and another bulleted list. The boxes are slightly offset to create a sense of depth.

PreRender Page

- layout lines
- layout positions for on the fly updates and code logic
- auto sync between all pages after user interaction and event handling

Rendered Pages

- Keys
- Hidden Layout
- Visible Layout
- Shapes and Ranges
